## Glassine

INSULATING CLEAR VINYL

**Insulates windows** at a fraction of the cost of insulated glass (60% less expensive than glass).

**Saves energy** usage and costs - withstands winter's low temperatures and summer's heat.

**Fast and easy to install** - perfect for the do-it-yourselfer. Can be installed over a weekend.

**Clear**, no distortion or yellowing.

**Shatter proof** - child safe.

**Flexible** - won't stiffen or crack.

**Glassine** - One of the most effective and least costly "Do-It-Yourself" weatherization products available on the market today.

A clear, heavy-duty vinyl, **Glassine** is the ideal low cost insulator for those applications where the cost of glass and its installation are not warranted. Whether you're a home renter or owner, have multiple windows or doors, are looking for the most cost effective window insulation, or simply prefer to do it yourself, **Glassine** is a fast and inexpensive way to insulate. Easy to assemble with readily available, low-priced framing materials. Anyone requiring all year protection and desiring all year energy savings can now enjoy the advantages of insulated windows.

**Tough**, long life and easy to clean.

**Can be installed** on the interior or exterior of any window.

**Available** in two heavy gauges - .012 and .016

**Weatherproof** - locks out drafts, winds, rain and snow.

**Multiple uses** - windows, doors, screened porches, greenhouses.
